# Canary in a Coal Mine

Building a company from start-up to the point of sustainability, year-over-year growth and increasing market share is, without a doubt, the hardest thing to accomplish in the business world.

If a company is successful in the execution of its business plan, it will be reflected in its market cap. The emerging company graveyard is filled with companies whose main focus was the short-term performance of its equity.

We understand and have experience with the high expectations of stakeholders. ISD can assist management in creating an exciting story, while keeping shareholders and the investment community connected and informed.

Our goal is to help you perform and to stay *out* of this Top 20 list.

# Social Media Management

We build and manage our clients' presence across essential social media channels.

By utilizing the efficiencies of the internet's global reach, we are able to educate and update the retail and professional investment community on our client's business model and corporate developments.

# National & Local Media

We have secured prime-time, live Business Television interviews for our clients, providing them with a national platform on which to tell their story to millions of investors.
